

JIM DAVIDSON

AV REQUIREMENTS

SPEAKER WILL PROVIDE

- laptop
- wireless advancer
- props
- postcard handouts
- Presentation direct from his laptop (PC using Windows 10, PowerPoint from Office 365 with videos embedded, video output via VGA or HDMI, audio output mini-plug jack. Do NOT need internet access).

CLIENT WILL PROVIDE

- an appropriate meeting room that can be darkened to project images
- an elevated stage (the bigger the better)
- 2-port switch box to connect Jim's laptop at the same time as the house laptop
- projector (SVGA+ resolution or better that is 3,000 lumens or more)
- audio connection for laptop to house sound system
- lightweight headset wireless microphone (ex: Countryman) or wireless lavalier microphone connected to house sound system
- large white projection screen
- large foot screen or "confidence monitor" facing the stage, showing what is onscreen
- power cord/power strip with two (2) power outlets
- a cloth-draped table (approx. 6 feet x 3 feet) on stage for props
- a cloth-draped table (approx. 6 feet x 3 feet) in the back of the speaking room for selling & signing Jim's book, "The Next Everest" OR "The Ledge", and two (2) chairs.

ADDITIONAL INFORMATION

Jim will arrive at the event a minimum of 60 minutes before speaking. For large audiences or depending upon the schedule, he may need to be there hours in advance.
