Testimonials

Dear John: I have you to thank for inspiring me to take charge of my life. Becoming a DOER helped me get my life back in balance! To own and operate a business requires huge amounts of physical and emotional energy! But so many professionals sacrifice their health as they're striving for their wealth. At 40, I was over 50 pounds overweight, not good personally or professionally! I am a health care professional who runs a business and speaks to "live" audiences on a weekly basis. Having a healthy image is essential for leadership and to build a solid successful business. It wasn't helping my image or my business being so terribly out of shape. I knew I needed to make a change and knew I needed to start respecting my health. Listening to you has inspired me to become a DOer myself! Now, after losing 50 pounds in just a few short months, I look better than I ever did and am healthier and more energetic than ever with loads of confidence! Life is so much easier now both personally and professionally. I am easily capable of presenting myself both in public and with my patients with incredible energy and frequency! I have properly aligned my health goals to be back in balance with my financial, family and spiritual goals—what a difference! Leaders need balance in their life! When you are over weight and out of shape you cannot have balance. There are no more excuses to being mentally and physically out of shape. Your guidance and motivation has literally saved my life and changed it in such remarkable ways. I now look forward to tomorrow! A New

DOER!

- Dr. James Sexton.

I worked out with John for 3 weeks. His classes were intense but the time just flew by. John's knowledge is incredible, and he's a terrific motivator. One thing's for sure, I got in my best shape ever following John's routines. I particularly love his No Excuses Workout as it's the perfect program when I'm in a hurry, which is a lot these days. If you ever get a chance get one of John's programs. You'll be glad you did!

- Amy Shiotoni.
