

Dominic Thurbon is co-founder and Chief Creative Officer at ChangeLabs, A business leader 'in the trenches', he directs over 50 full-time researchers and facilitators (across three countries) in the design and delivery of multi-award winning behavior change programs that touch over 500,000 people each year. Dominic has worked extensively in areas of behavior and generational change, innovation and collaboration with clients around the world including Apple, IBM, Johnson & Johnson, the Commonwealth Bank and Lexus. He has directed research on international best-sellers published in more than 15 countries, and is author of white papers on subjects as diverse as talent attraction and the impact of video games on industry and education. As a world top-10 debater and internationally soughtafter keynote speaker, his dynamic style, deep research and real-world experience building a multinational business uniquely equip him to challenge, inspire and transform your team. To book Change Speaker Dominic Thurbon call Executive Speakers Bureau at 901-754-9404.

Testimonials

“Dom Thurbon made us think very differently and we were all buzzing with new ideas at the end of the session. I would highly recommend Dom to work with your team - you will certainly be engaged, challenged and very creative with your approach.”

- Australian Broadcasting Corporation.

“Dominic is a fantastic, dynamic presenter who really demystified the whole ‘technology’ thing for us. His presentation was engaging, entertaining and - best of all - really valuable to us in the way we work.”

- Glaxo SmithKilne.
