Testimonials

"Your presentation to the Arkansas Hospital Association's ACHE workshop attendees on engaging physicians was just what our audience requested. . . Your strategies for understanding and influencing physician behavior were very well received by executives from large and small, urban and rural facilities. Your extensive background gave you just the credibility needed with our audience. Coming out of the room, one of our CEOs said, 'I can't WAIT to get home to put some of these practices to work!' I made him promise he would at least stay for the remainder of the annual meeting..."

- B. Ingram, Vice President, Arkansas Hospital Associatio.

"On behalf of the West Virginia Chapter of the American College of Healthcare Executives, thank you for a thought provoking, well received program on Physician relationships. The comments about your program were all very positive and complimentary. Everyone really liked your presentation style and someone actually wrote "down to earth" presentation about a very complicated issue."

- D. K. McClure, FACHE, West Virginia Regent, American College of Healthcare Executive.
