He is the former CEO of Covey Leadership Center, which, under his stewardship, became the largest leadership development company in the world. Stephen co-founded CoveyLink, a consulting practice, which focuses on enabling leaders and organizations to increase and leverage trust to achieve superior performance.

“Covey convincingly validates our experience at Dell—that trust has a bottom-line impact on results and that when trust goes up, speed goes up while costs come down. This principle applies not only in our professional relationships with customers, business partners, and team members but also in our personal relationships.”
