Testimonials

"I want to thank you for the impact you have had on both our company and me personally. You are a very talented motivational speaker, but more importantly, the content of what you teach and share with your audiences and clients is intellectually challenging and life changing. In a world where cost and price is perceived to be all that matters, you have shown us the intrinsic value of placing our primary focus on the customer experience. Learning about the complexities and nuances of emotional branding has been an incredible journey for me over the years, and I greatly appreciate your flexibility and availability in walking with us on this journey, helping us along the way."

- Vice President & General Manager Advanced Distributor Products.

Scott did an outstanding job presenting his vision for Customer Experience as the foundation for effective Branding at our International Dealer Conference in January '16. Not only did several guests tell me directly that Scott was among the best speakers they'd heard, but >95% of our group gave him a Good or Excellent rating in or post-event survey. Scott's success comes not only from his messages, which clearly articulate a unique point of view, but also from his preparation and commitment to connect with the group. As an example, he invited us to hear him speak, during our consideration process, then made himself available to meet with our Planning Team, after we contracted, to ensure that he had a good understanding of our business, the audience and our objectives. He nailed it. Scott brought energy, enthusiasm and meaningful insights to our group. Certainly, we'll stay connected with Scott and I would

highly recommend him to other organizations looking for a powerful presentation on Customer Experience and Branding.
