Testimonials

☐ I got to hear John Baumann speak recently, and felt that his personal story, as well as his message of living an amazing life with Parkinson's, was powerful. You see, John has Parkinson's. But even after a successful career as General Counsel for a large firm, he has found that life after his diagnosis has been magical. His presentation is honest, not sugar coated, but filled with inspiration on the emotional part of living with Parkinson's. Inspiring High Performance through Authentic Positivity ☐
