

Daniel Newman is a founding partner and Principal Analyst of Futurum Research and the CEO of Broadsuite Media Group. Living his life at the intersection of people and technology, Daniel works with the world's largest technology brands exploring Digital Transformation and how it is influencing the enterprise. From Big Data to IoT to Cloud Computing, Newman makes the connections between business, people and tech that are required for companies to benefit most from their technology projects, which leads to his ideas regularly being cited on CNBC, Wall Street Journal, Fortune, Barrons, Business Insider and hundreds of other leading business outlets around the world. Daniel is ranked in the Top 5 out of more than 8,000 technology analysts worldwide according to ARInsights, including multiple extended periods where he ranked #1. A 7 times best-selling author, including his most recent book, *Human/Machine*, Daniel is also a Forbes and MarketWatch (Dow Jones) contributor. MBA and Graduate Adjunct Professor, Daniel Newman is a Chicago native and his speaking takes him around the world each year as he shares his vision of the role technology will play in our future.

Testimonials

“Some speakers draw you in instantly, and some save their WOW for a few minutes in. Daniel saves his amazing stories and expertise to share once he knows you're listening! His wealth of knowledge explodes as you spend time listening and he will humbly fascinate you with his experience and personal exposure to well-known companies.”
