

Amy Edmondson is the Novartis Professor of Leadership and Management at the Harvard Business School. She studies teaming, psychological safety and organizational learning, and her articles have been published in numerous academic and management outlets, including *Administrative Science Quarterly*, *Academy of Management Journal*, *Harvard Business Review* and *California Management Review*. Her most recent book, “The Fearless Organization,” offers a practical guide for organizations serious about success in the modern economy and has been translated into 11 languages.

Professor Edmondson was named the 2021 Champion of Talent Development by the Association of Talent Development (ATD). Her prior books - “Teaming: How Organizations Learn, Innovate and Compete in the Knowledge Economy”, “Teaming to Innovate”, and “Extreme Teaming” - explore teamwork in dynamic organizational environments. In “Building the Future: Big Teaming for Audacious Innovation”, she examines the challenges and opportunities of teaming across industries to build smart cities.

Professor Edmondson is widely known for her brilliant work in leadership influences on learning, collaboration, and innovation in teams and organizations. Her innovative field-based approach includes research in contexts ranging from health care delivery and manufacturing to space exploration. One stream of her work has shown the effects of leadership behavior and a safe psychological climate on patient safety in hospitals while other streams have investigated management team practices that promote effective decision-making and organizational learning.

Professor Edmondson is a respected and beloved speaker and consultant to corporations, government entities, and nonprofit o...
