

Dr. Jessica Barker is a best-selling author and international keynote speaker. An award-winning leader in the human side of cyber security, she has delivered face-to-face awareness sessions to over 50,000 people. Named one of the top 20 most influential UK women in cyber security, she is the go-to cyber expert for media including the BBC, Sky News, and Wired magazine.

Jessica has delivered over 80 keynotes, including NATO, the World Government Summit, and RSA San Francisco. Her speaking engagements unpick the psychology and sociology of cyber security.

Jessica is the Co-Founder of the cyber security company Cygenta, where she focuses on her purpose to advance cyber security awareness, behavior, and culture in organizations around the world. She serves on numerous industry boards, including the UK Government Cyber Security Advisory Board. The author of 'Confident Cyber Security' and co-author of 'Cybersecurity ABCs', she helps audiences around the world understand why people are the heart of cyber security.

When Jessica is not working, she loves learning and so over the years, she has taken classes in everything from horse riding to singing to circus skills. Born in the UK, she now lives in Las Vegas with her husband FC and their cat Bubble.
