Testimonials

"Our organization has had a relationship with Ken for many years. The use of the word relationship is intentional because Ken has not just been a consultant to us, he has established a relationship with us. This allows him to challenge us in areas where others fear to go. In particular at a training session a year ago, he challenged our group, and the result was the catalyst for a year of positive change and growth. The department directors took initiative and completely reconfigured our director's meeting to be, in Ken's words, more compelling. Our leadership team developed 6 teams to enable us to create a more healthy work environment for our employees. Ken was very instrumental in calling us to change and encouraging us as we navigated through the change, together."

- **Patsy Martin Assistant Vice President of Organizational Effectiveness** .

"It has been a privilege and a pleasure to work with Ken Tucker these last 4 years. His advice and counsel has been invaluable as we have worked to resurrect a culture of entrepreneurialism and community spirit here at Summerville Medical Center. What Ken does so well is become involved with his

client organizations, partnering with the organization's leaders on both an individual and team level. Our stellar results over the past two years are directly attributable to his commitment and genuine interest in our leaders, from myself as CEO to other leaders at all levels throughout the organization. His passion and enthusiasm are what differentiates him from others we have tried to partner with in the past. It is this contagious enthusiasm that will push you to greater results as well."

- Pearce Fleming CEO.
