CHAD FOSTER

AV REQUIREMENTS

Computer, Projector, and Screen

Chad will give your AV team a USB drive containing his presentation during rehearsal. He also uses a MacBook with an HDMI and USB-C output if you prefer. His entire presentation is presented using a 16:9 display ratio. The Client should provide a wireless clicker to use with Chad's MacBook (standard USB connection). The larger the screen and the higher the quality of the projector, the better.

Microphone and Audio

Chad prefers a wireless lavalier microphone connected to a high-quality audio system.

Additional Information

Chad requires a podium for his presentation or a microphone stand with two sandbags (used to tether Chad to the stage center)

A room-temperature bottle of water while on stage is appreciated.
